## INDEPENDENT AUDITOR'S REPORT

Measure G Citizens' Oversight Committee and  
Governing Board Members  
Mountain View Whisman School District

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Measure G Bond Building Fund of the Mountain View Whisman School District, as of and for the year ended June 30, 2013, and the related notes to the financial statements, as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

The Mountain View Whisman School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Measure G Bond Building Fund of the Mountain View Whisman School

District, as of June 30, 2013, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matter**

As discussed in Note 1, the financial statements present only the Measure G Bond Building Fund and do not purport to, and do not, present fairly the financial position of the Mountain View Whisman School District, as of June 30, 2013, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mountain View Whisman School District's basic financial statements. The Statement of Cumulative Expenditures is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Statement of Cumulative Expenditures is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statement of Cumulative Expenditures is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have issued our report dated September 19, 2013 on our consideration of the Mountain View Whisman School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Mountain View Whisman School District's internal control over financial reporting and compliance.

**NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES**

A. Accounting Principles

The Mountain View Whisman School District (the “District”) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education’s *California School Accounting Manual*. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

B. Reporting Entity

The District services 70,000 residents and 4,800 students. The District is located at the southern tip of the San Francisco Bay and is comprised of seven elementary and two middle schools. The District is the level of government primarily accountable for activities related to public education. The governing authority consists of five elected officials who, together, constitute the Board of Trustees.

In 2012-13, an advisory committee to the District's Governing Board and Superintendent, called the Measure G Citizens' Bond Oversight Committee was established. The Committee's oversight goals include: advising on bond construction priorities, reviewing school bond construction plans, reviewing project plans and budgets, and ensuring compliance with the conditions of Measure G.

The financial statements presented are for the individual Measure G Bond Building Fund and are not intended to be a complete presentation of the District's financial position on operations.

C. Basis of Presentation

**Fund Financial Statements:**

Fund financial statements report detailed information about the District. The Building Fund is a governmental fund and is presented as a major fund in the District’s combined financial statements. The Building Fund is used to account for proceeds from the sale of real property and account for the acquisition of major governmental capital facilities and buildings from the sale of bond proceeds such as Measure G general obligation bonds.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances for the Measure G Building Fund presents increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

**For the Year Ended June 30, 2013**

---

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Governmental funds use the modified accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions:

On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means collectible within the current period or within 60 days after year-end.

Non-exchange transactions, in which the District receives value *without* directly giving equal value in return, include property taxes, grants, and entitlements. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Revenue:

Deferred revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as deferred revenue. On governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have also been recorded as deferred revenue.

Expenses/Expenditures:

On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

**MOUNTAIN VIEW WHISMAN SCHOOL DISTRICT**  
**Measure G Bond Building Fund**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

---

These budgets are revised by the District's governing board and District superintendent during the year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object.

F. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated on June 30.

G. Assets, Liabilities, and Equity

1. Cash and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation except for non-interest bearing accounts which are completely insured.

In accordance with *Education Code* Section 41001, the District maintains substantially all of its cash in the County Treasury. The county pools these funds with those of other Districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

All District-directed investments are governed by Government Code Section 53601 and Treasury investment guidelines. The guidelines limit specific investments to government securities, domestic chartered financial securities, domestic corporate issues, and California municipal securities. The District's securities portfolio is held by the County Treasurer. Interest earned on investments is recorded as revenue of the fund from which the investment was made.

2. Capital Assets

Capital assets, which include sites, improvement of sites, buildings and improvements, equipment, equipment and construction in progress, are reported in the government-wide financial statements of the District but not include in the Measure G building fund. Such assets are valued at historical cost or estimated historical cost unless obtained by annexation or donation, in which case they are recorded at estimated market value at the date of receipt. The District utilizes a capitalization threshold of \$5,000.

Projects under construction are recorded at cost as construction in progress and transferred to the appropriate asset account when substantially complete. Costs of major improvements

**MOUNTAIN VIEW WHISMAN SCHOOL DISTRICT**  
**Measure G Bond Building Fund**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

---

and rehabilitation of buildings are capitalized. Repair and maintenance costs are charged to expense when incurred. Equipment disposed of, or no longer required for its existing use, is removed from the records at actual or estimated historical cost.

3. Deferred Revenue

Cash received for special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Deferred revenue is recorded to the extent that cash received on specific projects and programs exceeds qualified expenditures.

4. Compensated Absences

A liability for compensated absences is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken, since such benefits do not vest, nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

5. Long-Term Obligations

In the Measure G building fund financial statements, bond premiums, discounts and bond issuance costs are recognized during the current period. The face amount of the debt issued, premiums, or discounts are reported as other financing sources/uses.

6. Fund Balance Classifications

In accordance with Government Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies governmental fund balances as follows:

- Non-spendable includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end. Committed fund balances are imposed by the District's board of education.

**MOUNTAIN VIEW WHISMAN SCHOOL DISTRICT**  
**Measure G Bond Building Fund**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

---

- Assigned includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the Superintendent and the Assistant Superintendent of Business Services.
- Unassigned includes positive fund balance that has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

7. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has joined together with other school districts in the County to form the South Bay Area Schools Insurance Authority (SBASIA) and the Santa Clara County Schools Insurance Group (SCCSIG) public entity risk pools currently operating as common risk management and insurance programs. The District pays an annual premium for its property and casualty, workers' compensation, unemployment and liability insurance coverage. The Joint Powers Agreements provide that SBASIA and SCCSIG will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of self-insured levels.

8. Accounting Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**NOTE 2 – CASH AND INVESTMENTS**

Summary of Deposits

A summary of deposits as of June 30, 2013, is as follows:

Deposit or Investment - Building Fund Only	Carrying Amount	Fair Value	Investment Rating
Cash in county treasury investment pool	\$ 49,577,217	\$ 49,619,258	Various

**MOUNTAIN VIEW WHISMAN SCHOOL DISTRICT**  
**Measure G Bond Building Fund**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

---

Cash in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are described below:

*Interest Rate Risk*

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to the changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District keeps cash in the Santa Clara County Investment Pool which had a fair value of approximately \$4.52 billion and an amortized book value of \$4.52 billion. The average weighted maturity for this pool is 374 days.

*Credit Risk*

Credit risk is the risk of loss due to the failure of the security issuer. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment with the Santa Clara County Investment Pool is governed by the County's general investment policy, which is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments. The County's investment policy limits all investments to the top three ratings issued by at least two of the nationally recognized statistical rating organizations (NRSRO).

*Custodial Credit Risk – Deposits*

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government code requires that a financial institution secure deposits

**MOUNTAIN VIEW WHISMAN SCHOOL DISTRICT**  
**Measure G Bond Building Fund**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

*Concentration of Credit Risk*

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government code. District investments that are greater than 5 percent of total investments are in either an external investment pool or mutual funds and are therefore exempt.

**NOTE 3 – CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2013, is shown below:

Capital Assets	Balance			Balance June 30, 2013
	July 01, 2012	Additions	Deletions	
Work-in-progress - not depreciable	\$ -	\$ 385,264	\$ -	\$ 385,264
Equipment - depreciable	-	54,890	-	54,890
Total capital assets - net depreciation	\$ -	\$ 440,154	\$ -	\$ 440,154

**NOTE 4 – MEASURE G GENERAL OBLIGATION BOND**

Through elections, the District received authorization to issue general obligation bonds (GOB) that requires the county to levy annual ad valorem taxes for the payment of interest and principal on the bonds. Bond proceeds are used to build additional classrooms and to perform repairs and renovations.

In February of 2013, the District issued \$50,000,000 in General Obligation Bonds, Series A, to finance constructions projects for facilities improvements. From the gross proceeds of \$52,623,484, which included a premium of \$2,848,484 net of an underwriting discount of \$225,000, net proceeds of \$52,148,484 (after payment of \$475,000 in issuance costs) was deposited with the County in the District's name. Of the net proceeds deposited, \$50,000,000 was recorded in the Measure G building and fund and \$2,148,484 was recorded in the bond interest and redemption fund. The bond bears interest at 3 to 4% and matures on September 1, 2040.

The following schedule summarizes District's Measure G general obligation bond as of June 30, 2013:

Bond	Original	Outstanding		Redeemed	Outstanding	Current
	Issue	July 01, 2012	Issued		June 30, 2013	Portion
2012 GOB, Series A, Meas. G	\$ 50,000,000	\$ -	\$ 50,000,000	\$ -	\$ 50,000,000	\$ 4,000,000

**MOUNTAIN VIEW WHISMAN SCHOOL DISTRICT**  
**Measure G Bond Building Fund**  
**Notes to the Financial Statements**  
**For the Year Ended June 30, 2013**

---

The following is a summary of the Measure G bond annual debt service requirements as of June 30, 2013:

Year Ending June 30	Principal	Interest	Total
2014	\$ 4,000,000	\$ 1,796,320	\$ 5,796,320
2015	4,200,000	1,641,800	5,841,800
2016	325,000	1,615,925	1,940,925
2017	-	1,611,050	1,611,050
2018	-	1,611,050	1,611,050
2019-2023	1,235,000	8,000,450	9,235,450
2024-2028	4,200,000	7,437,250	11,637,250
2029-2033	8,585,000	6,113,250	14,698,250
2034-2038	14,725,000	3,816,250	18,541,250
2039-2040	12,730,000	693,350	13,423,350
<b>Total Debt Service</b>	<b>\$ 50,000,000</b>	<b>\$ 34,336,695</b>	<b>\$ 84,336,695</b>

**NOTE 5 – COMMITMENTS**

Through September 19, 2013, the District had encumbered \$3,855,346 of the Measure G proceeds that are budgeted to be spent on capital projects in the fiscal year ended June 30, 2014.

**NOTE 6 – SUBSEQUENT EVENTS**

Management has evaluated subsequent events through September 19, 2013, the date on which the financial statements were available to be issued.

**Notes to the Supplementary Information**  
**For the Year Ended June 30, 2013**

---

**NOTE 1 - THE PROGRAM**

Proposition 39 was enacted by the voters on November 7, 2000, and changed the required majority for local voter approval of public school and community college general obligation bonds from two-thirds to fifty-five percent of votes. It also required school districts to provide facilities to charter schools operating within their jurisdictions.

On June 5, 2012, 67.58% of local voters passed Measure G, which generates funding to provide safe, efficient, and modern facilities for Mountain View Whisman School District students and staff. The approval percentage was the highest in Santa Clara County and the 4th highest of the 34 school bond measures in the State of California.

Measure G will generate up to \$198 million to repair, upgrade and expand our local schools. Funds will be generated through the sale of general obligation bonds, which will be repaid through assessments on residential and commercial property located within the Mountain View Whisman School District. The annual cost to local property owners is limited to \$30 per \$100,000 of assessed property value.

All projects funded by the issuance of Measure G general obligation bonds will be subject to review both by the District's Board of Trustees and by an independent citizens' oversight committee. The District will also provide many public forums to present progress and seek input from community members, parents, and staff.

**NOTE 2 - CITIZEN'S OVERSIGHT COMMITTEE**

Duties of the committee include ensuring that bond revenues are expended only for the construction, reconstruction, rehabilitation or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities. The committee must also ensure that no funds are used for any teacher or administrative salaries or other school operation expenses.

Furthermore, the committee is authorized to receive and review copies of the annual independent performance audit and the annual independent financial audit required by Article XIII A, Section 1(b)(3)(C) and Article XIII A, Section 1(b)(3)(D), respectively, of the California Constitution.

The Committee was formed by the Board trustees, which met five times in the last fiscal year. The Citizens' Bond Oversight Committee was comprised of the following members as of June 30, 2013:

Juan Aranda	Dana Doctorow	Jessica Gandhi
Jeremy Burns	Charlie Durand	Peter Pirnejad
Greg Coladonato	Christi Opitz	Fiona Walter

Governing Board Members  
Mountain View Whisman School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Measure G building fund of the Mountain View Whisman School District as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Mountain View Whisman School District's basic financial statements, and have issued our report thereon dated September 19, 2013.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Mountain View Whisman School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Mountain View Whisman School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Mountain View Whisman School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Mountain View Whisman School District's financial statements are free from material misstatement, we performed tests of its

compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON PERFORMANCE

Measure G Citizens' Oversight Committee and  
Governing Board Members  
Mountain View Whisman School District

We were engaged to conduct a performance audit of the District's Measure G Bond Building Fund for the year ended June 30, 2013.

We conducted this performance audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our conclusions based on our audit objectives.

Our audit was limited to the following objectives:

1. The proceeds of the sale of the Proposition 39/Measure G Bonds were only used for the purposes set forth in the ballot Proposition and not for any other purpose, such as teacher and administrative salaries.
2. The Governing Board of the District, in establishing the approved projects set forth in the ballot Proposition, evaluated the remodeling, new construction and renovations of items which will relieve overcrowding, repair local schools and improve student safety conditions of the District.
3. The District complied with the performance requirements as referred to in Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution. Management is responsible for the District's compliance with these requirements.

To meet the objectives of our performance audit, procedures we performed included, but were not limited to, the following:

1. We verified that bond proceeds were deposited in the District's name and invested in accordance with applicable legal requirements.
2. We selected four contracts and verified their compliance with the Public Contract Code bid requirements, and that their invoices were paid within the contract terms and with board approval.
3. We tested payments made to the architectural service companies and reviewed the terms of the contract.
4. We tested approximately 81% of the 2012-13 expenditures to ensure they were valid, allowable and accurate.

In planning and performing our performance audit, we obtained an understanding of the District's internal control in order to determine if the internal controls were adequate to help ensure the

District's compliance with the requirements of Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution. Accordingly, we do not express and opinion on the effectiveness of the District's internal control.

The results of our tests indicated that the District expended Measure G General Obligation Bond funds only for the specific projects approved by the voters, in accordance with Proposition 39 and outlined in Article XIII A, Section 1 (b)(3)(C) of the California Constitution.
