Additional Information

Q: Is a parent or legal guardian required to be present for minors?

A: A parent or legal guardian is required to be present for anyone under the age of 16 years.

Q: What should I bring with me to the mobile clinic?

A: The only item that is required is a photo ID. This could be a driver's license or passport, but other items, such as a student ID, are also accepted. For minors, a photo ID for the parent/guardian is required. If you have health insurance, you should also bring a copy of your insurance card.

Q: Does getting a vaccine cost anything?

A: No. Vaccines are administered at no cost to all members of the community. If you have health insurance, El Camino Health may bill your insurance company for the cost of administration, but this cost will never be passed on to you.

Q: Who is eligible to receive a vaccine now?

A: At this time, anyone 12 years and older is eligible to receive a vaccine.

Q: What vaccine will be available at the mobile clinic?

A: Typically Pfizer will be available at our mobile clinic and Johnson & Johnson (Janssen) may also be available at times.

Q: How will I receive my second dose?

A: We are working with our partners in the community to ensure our mobile clinic will return to the same location three weeks after the first dose clinic in order to provide second doses to everyone that received a first dose.

Q: What if I am unavailable to return for the second dose?

A: Please let our staff at the clinic know about this. There are many options available to you. The CDC allows for up to six weeks to pass before receiving the second dose, if necessary, and we can provide you alternative locations to receive this dose.

Q: Can I come to this clinic to receive my second dose if I have received my first dose somewhere else?

A: Yes you can. However, we will not have Moderna available and can only administer second doses of Pfizer. Please bring your CDC vaccine card and/or any other documentation from your first dose and ensure it has been at least 18 days since receiving your first dose.

Q: Who may I contact if I have additional questions?

A: For questions about or assistance with this clinic, please call 408-871-7460, Monday through Friday, between 8 a.m. and 5 p.m.
