

Dear Neighbor,

Thanks to the generosity of our community, the first phase of the Landels Elementary Measure G construction project will begin this summer. Passed by voters in 2012, Measure G generates funding to provide safe, efficient, and modern facilities for Mountain View Whisman School District students and staff.

The 18-month project includes classroom modernization and a new multi-use room. The modernization and renovation of the existing multi-use room into the new library and two special education classrooms will start in summer 2018 and be complete by winter 2018. The classroom modernization, administration office reconfiguration, and expansion of one kindergarten classroom will be completed by the end of summer 2018.

Regards,  
Dr. Ayindé Rudolph  
Superintendent

***You will notice continued construction noise and truck traffic around the school. We will do our best to limit the disruption to the neighborhood, but please know there will be a noticeable impact to you and your fellow neighbors. If you would like to report noise issues or other construction concerns, please contact Robert Clark, Ed.D., CBO, at [rclark@mwwsd.org](mailto:rclark@mwwsd.org) or 650-526-3500.***

# School construction projects in your neighborhood

## Landels Elementary

### Projects

- New Multi-Use Room
- Classrooms modernization
- Repurpose Multi-Use Room for Library and special education classrooms
- School office reconfiguration
- Expansion of one kindergarten classroom

### Timing

June 2017- December 2018

### What to expect this summer:

Containers for storage of furniture and classroom materials will be delivered in May and set up on campus. By the end of May, you may notice construction trailers and fencing materials on campus. After school dismissal on June 6, fencing will go up and construction will begin on the new Multi-Use Room (to continue for approximately twelve months). Please expect that areas of the campus and occasionally the play structures will be off-limits this summer. Portable classrooms will be placed on the blacktop area (see map) to serve as temporary classroom space during construction.

The fence lines are estimated, pending contractor placement in the field.
